democratic disruption

Compelling virtual experiences have the power to reconnect people.

To be successful they require thoughtful and creative planning.

PLANNING - We partner our clients to develop clear strategy and planning for rewarding virtual communication.

We create a drumbeat of engagement and build a dynamic programme to motivate and inspire remote audiences.

PRODUCTION - Our team optimise mainstream platforms, or develop bespoke tools with supporting connectivity, to produce quality live broadcasts.

Events are streamed from our professional studio, or directly from participant webcams using our creative studio-in-a-box technology.

Linking a global audience.

- **Doctorsupdates** Covid Specialist knowledge forum for over 250 UK clinicians
- **LinkedIn** Annual Sales 'Offsite' across four regions
- **Corporate Masterclass** Live streamed interactive workshops, hosted in our hybrid studio.

We reconnect people in the magic of shared endeavour.

Talk to us, we will transform your next virtual event.
